1

People always dream of flying by themselves, and this flying car may be their choice. It is **economical** because it runs on solar energy.

2

If you cannot drive, it is a **wonderful** way to fly like a bird. This jetpack uses an engine with two fans to lift you off the ground.

3

Maybe policemen want to have it as soon as possible because it is **fast** and it can avoid traffic jams. Fans help this flying motorbike stay in the air.

4

This amphibious bus can run on water and land. In countries with a lot of rivers and canals like Việt Nam, it is a **convenient** way to travel.
